

Northern Naturals

PREMIUM EXTERIOR WOOD STAINS

Hirshfield's Paint Manufacturing

Northern Naturals Exterior Stains are specially formulated for our harsh Midwestern climate – the driving rain, the beating sun, the numbing cold. For years, painting professionals have used Hirshfield's stains for both new and redo applications on homes, townhomes and commercial buildings.

Solid Color Latex Stain

Premium 100% acrylic formula can be used on most exterior wood, hardboard and masonry surfaces over new or properly prepared surfaces.

- Self-Priming over new wood
- Excellent resistance to fading, cracking and peeling
- Resists tannin bleed over cedar and redwood
- Allows wood texture to show
- Excellent color retention
- Easy soap and water clean-up
- Available in 1,000s of custom colors
- Low-Temp 35° Application Formula

Solid Color Oil Stain

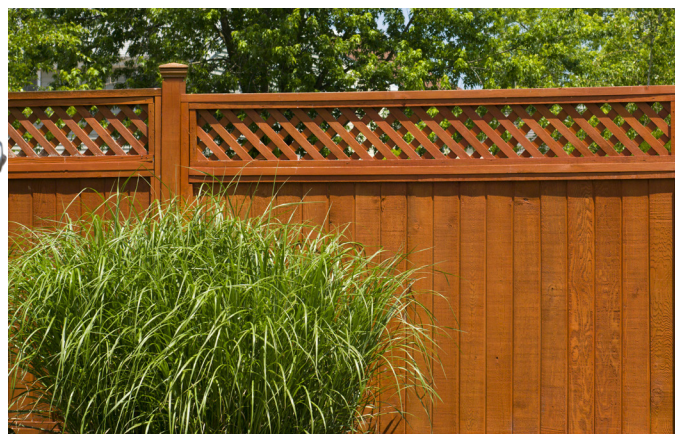

Premium Linseed oil-based formula can be used on most exterior wood and vertical surfaces like smooth and rough-sawn cedar, redwood, pine, fir and aspen.

- Allows wood texture to show through
- Can be used on new and previously painted or stained surfaces
- Available in 1,000s of custom colors

Semi-Transparent Oil Stain

Premium Linseed oil-based for deep penetration into cedar, redwood and most other wood species.

- Preserves and protects exterior wood surfaces
- No surface coating to peel or blister
- For horizontal and vertical surfaces
- Allows grain to show through
- Available in colors to match your siding color
