

# Pre-Catalyzed Epoxy

## Acrylic Water-Based Epoxy

Hirshfield's Paint Manufacturing

### **Hirshfield's High Performance Industrial Coatings**

*These coatings are designed for professionals and formulated to meet the demands needed on commercial, industrial and institutional projects. They, not only, protect the surfaces to which they are applied, but also protect our environment. You can be assured that these products will provide years of exceptional durability and are backed by Hirshfield's 120 years of experience.*

Hirshfield's pre-catalyzed, water-based epoxy is an extremely durable coating in a single component product. Ideal for use in schools, healthcare facilities, commercial kitchens, bathrooms, and other areas that require added durability and are subject to abuse and frequent washing. This product has excellent adhesion over properly primed substrates including metal, wood, masonry, and drywall. This epoxy does not require measuring, has no pot-life time, and is soap and water clean-up for added convenience.

**For use on wood, metal, masonry and drywall**

**Low Odor / Low VOC • Fast Dry**

**Resistant to most commercial cleaners**

**Stain dirt and soil resistant**

**No sweat-in time • No pot-life time**

**Suitable for use in USDA inspected facilities**

**Soap and water cleanup**

**Available in Eggshell & Semi-Gloss Finishes**
