

Virtual In-Home Consultation | Quick Start Guide

At Hirshfield's, we are working together with you, our Valued Customer to provide a wide array of tools to make your experience as meaningful as possible. One of those tools is our Virtual In-Home Consultation through Apple's FaceTime application. We can walk through your space together via FaceTime video and even take pictures, while providing you the same in-house experience and the flexibility to schedule your consultation at your convenience.

We have put together some simple quick start information in preparation for a FaceTime call for your convenience. To use Apple's FaceTime Video application and collaborate with the Hirshfield's Team, please confirm the following:

- Your iPhone with FaceTime installed (this should be standard on all Apple devices).
- Your iPhone has internet connectivity (Wi-Fi or Cellular Data).

That's it! Next, we meet!

Receive a FaceTime call

When a FaceTime call comes in, tap any of the following:

- *Accept:* Take the call.
- *Decline:* Decline the call.
- *Remind Me:* Set a reminder to call back.
- *Message:* Send a text message to the caller

Set up a reminder to return the call later.

Send the caller a text message.
